

[illegible][illegible]

Top view of the MIPIND-1 board. Dimensions are indicated: 7.2 (width of the bottom connector area), 5.0 (width of the bottom connector area), 2.2 (width of the bottom connector area), 104.2 (height of the main board area), and 114.2 (total height of the board area).

Technical drawing of a mechanical part, showing a front view and a top view.

The front view (left) shows a rectangular block with a central slot and two circular holes. The top view (right) shows the same block from above, with a central slot and two circular holes. A dimension line indicates a length of 35 units.
